SportsKPI's Sports Analytics Course

🎓 EDUCATION

B.E Electronics & Telecommunication | SPPU, Pune
07/2019 - 08/2023

⚙ WORK HISTORY

11/2022 - Present | Total Cricket Analysis | Cricket Data Analyst

- Responsible for daily posting of **analytical content** on the website, providing valuable insights to cricket enthusiasts. Utilize **Python, Tableau, SQL**, and other technical skills to create visually appealing and informative visualizations.
- **Over 80 published** data-driven analytical articles on cricket, including previews, post-match reports, player-level analysis, and team-level analysis.

01/2022 - Present | TwiLearn EduTech | Data Science Instructor

- Designed and developed a **comprehensive syllabus** to provide students with a well-rounded understanding of data science concepts and practical skills.
- Successfully taught and mentored over **2000 students**, fostering a deep understanding of data science principles and applications.
- Regularly engage with students to address their doubts, ensuring a **supportive and interactive** learning environment.

PERSONAL PROJECTS

Unveiling the Skill Ratio Index (SRI) | 06/2023

- SRI gives useful information about **player consistency and impact**. We can identify players who consistently contribute and have a major impact on the game by analysing individual performances through the prism of SRI.
